# SOCIALAND ENVIRONMENTAL **COMMITMENT: COLLABORATION WITH BANCO** DE TAPITAS AC FOUNDATION

Turning plastic bottle caps into hope for children with cancer.

At Mexico Grand Hotels, we are pleased to announce our collaboration with the Banco de Tapitas AC Foundation, a project that reflects our commitment to social well-being and environmental care. Every month, we send plastic caps collected by our guests, employees, and the local community, which are transformed into resources to help cover part of the medical treatments for children with cancer.

This initiative has a dual purpose: supporting children with cancer and promoting recycling. By collecting caps, we reduce plastic waste in landfills and support the circular economy, turning what is often difficult to recycle into a valuable resource for health.

Guests can participate by depositing their plastic caps at collection points throughout the hotel, and our staff also takes part in the collection. Every month, the collected caps are sent to the Banco de Tapitas AC Foundation, which turns them into funds for medical treatments.

In addition to benefiting the children, this collaboration strengthens our image as a responsible company, promotes employee engagement, and raises awareness in the community about the importance of recycling. Every cap collected represents a chance at life for those in need, and together, we are part of this positive change.

# TEMAZCAL: AN ANCIENT PURIFICATION RITUAL

Revitalize your body and mind with this centuries-old ceremony at Milagro Spa.

The Temazcal is an ancient tradition that has lasted for thousands of years, practiced by Mesoamerican civilizations such as the Aztecs, Mayans, and Toltecs. This steam bath ceremony aims to purify the body and soul, and its name comes from the Nahuatl word "temázcalli," meaning "house of heat." Through this ritual, participants seek to heal and renew their vital energy, in a process that goes beyond the physical.

During the Temazcal experience, participants are guided by a shaman who introduces hot volcanic stones into a small enclosed space, onto which a herbal tea is poured. This aromatic steam, along with the heat and humidity, promotes skin cleansing, improves blood circulation, and purifies the respiratory system. Additionally, cold towels are used to refresh the face, and aloe vera is applied to soothe the skin, facilitating the detoxification process.

At the end of the ritual, a cold shower closes the pores, allowing the skin to recover its freshness and revitalization. The Temazcal is not only a physical purification act but also a spiritual experience that connects participants with the roots of Mesoamerican culture, offering deep well-being. At Milagro Spa, we invite our guests to enjoy this unique ceremony and experience its powerful healing and renewal benefits.

The gastronomic offering is made with the care and attention to detail that characterizes Mestizo del Mar, creating the perfect atmosphere to share with family.
